

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## INTRODUCTION.

---

The old brick building now so celebrated as "The Libby Prison," was built about 1852 by Mr. John Enders, the father of the tobacco trade of Richmond. Mr. Enders lost his life by a fall from a ladder while the building was in course of construction.

Capt. Libby, from whom the building takes the name, was only a tenant under Mr. Enders. He conducted a ship chandlery business.

The block of buildings which constituted the prison consists of three tenements, each 110x44 feet, four stories, fronting north on Cary street and south on Dock. The western end of the block, generally seen in the various cuts of the building, opened on the cross street.

The corner tenement is now owned by the Southern Fertilizing Company, and the other two by Mrs. George S. Palmer, a daughter of Mr. Enders who built the block.

The building was converted into a prison in 1861, and was used as such until the end of the war.

It was more especially an "officers'" prison, but prisoners of all grades were received, registered and transferred to Belle Isle, Andersonville, Salisbury and other points deemed secure from attack.

It is estimated that from 40,000 to 50,000 prisoners passed through this prison during the period from 1861 to 1865.

The books of the institution were carefully and systematically kept, including a complete register of arrivals, departures, deaths, burials, &c., &c., and are supposed to be now in the possession of the government.

In February, 1864, Colonel Streight and a number of his comrades made their escape by tunneling under the prison walls on the east side and into an adjoining building, from which they emerged into the street.

Some of the party were recaptured, but others, with Colonel Streight, made good their escape.

At times the demand for troops to meet expected raiding parties was so urgent that every available man was sent from Richmond; and on one occasion, when the Libby contained a thousand officers, the entire guard on duty there, excepting the relief *on guard, was marched to the city defences to meet the enemy.*

A large part of the guard duty at the Libby, especially in the latter years of the war, was performed by citizens of Richmond far beyond the age of exemption and totally unable to endure the fatigue of active duty. Probably no more humane or harmless men ever watched over the slumbers of prisoners of war.

The "rules and regulations" provided, "nor shall any prisoner be fired upon by a sentinel or other person except in case of revolt or attempted escape."

Five or six cases occurred in which prisoners were killed or wounded in their attempts to escape.

An ample supply of water was conveyed to each floor by city pipes, and the prisoners had unlimited supply for bathing and washing.

By act of congress, and by order of the Secretary of War, the rations furnished prisoners of war were to be the same in quantity and quality as those furnished to enlisted men in the Confederate States army.

If the rations of the prisoners in the Libby deteriorated in quality and diminished in quantity as did the rations of the Confederate soldier in the field, he had cause to complain. But it is doubtful if the prisoners there ever at any time suffered the total deprivation of food for days, or such irregular

and limited supply, as the Confederate soldier was familiar with.

Any person interested in the "prison" history of the war will find many historical facts in relation thereto in a volume entitled "The Treatment of Prisoners," published by the Southern Historical Society. The biography of General Bartlett, of the Federal army, who was a prisoner in the Libby, contains very interesting incidents of his stay there.

The day has happily come in which the soldiers of each side are agreed that even the bitterness of prison life shall be forgotten.

The present owners of the Libby have generously allowed some of the timbers to be removed and made into gavels, which will be on sale at the Lee Camp Fair for the Home for disabled Confederate soldiers.

The presiding officer of every Grand Army Post should have one of these "souvenirs" with which to "rap" the Post to order.

The above is printed here as a not inappropriate introduction to the list of names, initials, sentiments, etc., written or graven on the walls, window frames and doors of the Libby prison by numbers of those who were so unfortunate as to have suffered forcible detention within its walls.

If any of those whose names are here printed

now survive, surely this little pamphlet will serve to remind them of the part they took in the cause of the Union, now so firmly established, but THEN in such jeopardy, and will be a valued souvenir to their children in the years that are to come.

Nor will the list be less prized by those who read here the name of some dearly loved one, who escaped the dangers of the prison only to die for flag and country on some hard fought field of battle.

And it may chance that some one will read here THE ONLY RECORD LEFT of some soldier, good and true, who loved his country well, but gave no cry when he died: whose only epitaph was written with his own hand on the walls of his prison.
